

# Automotive Solutions

From showroom to lot,  
we've got your back.

With theft and damage a rising threat to Auto Dealerships, physical security is a critical function every dealership understands. Protecting and monitoring your investment in inventory and your customers' property affects not just your profitability but your viability as a business.

YourSix's pure cloud OS equips you with real-time monitoring, push notifications, incident capture, and intervention. Our redundant, scalable, intuitive platform not only makes security simpler, it even reduces the growing number of false alarms dealers face today, as well.

Protecting investments long term with **open technology**

Eradicating downtime with **redundant architecture**

Powering simplicity with a **single pane of glass**

Growing to your needs with **unlimited scalability**

Ensuring up-to-date protection with proactive **health monitoring**

Guarding data with **modern cybersecurity protocols**

# Fueling Innovation Through Open Technology

YourSix protects both the inventory on your lot and your investment in parts for servicing vehicles with robust recording and monitoring capabilities.

- Monitor lots in real-time from anywhere
- Access recordings easily for police investigations and insurance claims
- Reduce investigators' time with seamless search and upload for any incident
- Reduce false alarms using video verification of incidents as they occur
- Play recorded audio or speak live via talk down to deter crimes in progress
- Flexible video subscriptions for any duration of retention
- Redundant video storage: in each camera, centrally on-premise, and in the cloud
- Control access to designated areas and retain detailed logs
