

# Manufacturing

From quality assurance to workplace safety, we've got your back.

Your employees and your reputation are your greatest assets. You can't afford to risk either. And, you can't afford to ignore opportunities for improvement in them either.

The YourSixOS pure cloud platform empowers you to watch over your employees and inventory while generating visual intelligence that drives innovation, optimization, and quality assurance. Because we are scalable, redundant, and secure, YourSix simply protects what you value most in real-time, from anywhere, without disrupting your processes.

Protecting investments long term with **open technology**

Eradicating downtime with **redundant architecture**

Powering simplicity with a **single pane of glass**

Growing to your needs with **unlimited scalability**

Ensuring up-to-date protection with proactive **health monitoring**

Guarding data with **modern cybersecurity protocols**

## Improving Daily Operations Through Open Technology

From the loading dock through your manufacturing processes, tracking materials on their journey through your processes gives you the knowledge to improve workflows, eliminate bottlenecks, and mitigate loss.

- Ensure supply quantities are adequately stocked in every location
- Detect and deter employees theft with proactive alerts
- Leverage visual analytics to improve quality control
- Optimize picking processes by visually monitoring patterns and routes
- Improve location accuracy to reduce labor and equipment costs
- Monitor loading processes to maximize dock-door scheduling
- Lower injury incident rates with video-triggered alerts and audio talkdown
- Limit access to designated areas to only authorized personnel
- Provide quick, post-incident analysis with visual analytics
